## **Travel Nevada's Rural Roundup: Connecting Rural Nevada to the World**

In 2024, travelers to rural Nevada spent \$2.04 billion (yes, with a "b"! ) which means that visitors spent an average of nearly \$5.6 million per day! Rural Roundup is your chance to connect with the destination marketing organizations (DMOs), travel professionals, and industry experts from across the state who drive this important economic engine. These rural movers and shakers are the lifeblood of our "Get a Little Out There" ethos, and they are looking for organizations like yours to enhance their efforts, connect with visitors, and share their stories.

## **Why Sponsor Rural Roundup?**

Rural Roundup is the premier tourism conference for rural Nevada. Hundreds of attendees from across the tourism industry—including government, business, and academic partners—will see your brand through multiple mediums including our website, email marketing, social media, and of course, during this year's conference in beautiful Elko, Nevada.
